Re: Water Shut Off

We have leaking shut off valves throughout the co-op tunnel system and in order to get them repaired/replaced, water will have to be shut off.

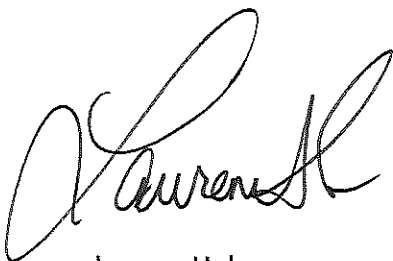

On **Tuesday, June 2nd**, the water for 1974 & 1976 will be shut off between the hours of 9 am and 3 pm.

On **Wednesday, June 3rd**, the water for 1978, 1980 & 1982 will be shut off between the hours of 9 am and 3 pm.

Please do not turn on any taps during this timeframe in order to avoid any flooding.

We will try to keep the shut off to a bare minimum, but it may take until 3:00 p.m. to finish the work.

Should you want to have water for tea, coffee etc., I would suggest that you fill up a bucket, kettle or such, prior to the shut off.
